

I have read and understood the below terms and conditions.

I hereby verify that the organisation I have submitted an application on behalf of [hereby referred to as “my organisation”] is either a not-for-profit sporting or a community group *and* is an incorporated association or has a similar accountability structure defined by the WA Department of Commerce.

If successful, my organisation will not under any circumstances on-sell the defibrillator or any of the associated components to any third parties at any stage. If the defibrillator is used on a casualty, I understand that St John WA will cover the replacement costs of the pads, however, it is the obligation of my organisation to pay for the ongoing expenses to maintain the defibrillator.

Before the defibrillator and cabinet is installed, my organisation agrees to undertake and pass an initial St John Safe assessment, as well as passing an annual St John Safe assessment.

I understand that the defibrillator must be located on the exterior of the relevant building so it can be accessed by the general public and that it will be registered as part of the St John WA Community First Responder network.

If successful in this grant, my organisation will contribute \$200, as well as any costs for supply of first aid kits required, at time of invoicing via credit card payment.

-----

\*St John WA reserves the right to close applications before this date dependent on the volume of applicants.
